## Explanation of Chiropractic Benefits – Medicare

Please be advised that under current Medicare guidelines Section 1862(a)(1) of the Social Security Act, Chiropractic benefits are as follows:

Medicare does cover Chiropractic care but with limitations.

- Medicare does cover Manual Manipulation of the spine only.
- Medicare does not cover the cost of any x-ray(s) ordered by your chiropractor.
- Medicare does not cover the Initial Examination, Re-examinations, SEMG, Therapy, Supports, or Supplements which may be required for treatment in this office.

Our office will notify you of the services that are not covered.

### Physician's Notice:

Medicare will only pay for services that it determines to be reasonable and necessary under Section 1862(a)(1) of Medicare Law. If Medicare determines that a particular service, although it would otherwise be covered, it not "reasonable and necessary" under Medicare payment standards, Medicare will deny payer for that service.

### Beneficiary Agreement:

I agree to be personally and fully responsible for all non-covered services as outlined above.

I request that payment of authorized Medicare benefits be made to Alan R Post, DC for any services furnished to me by that physician. I agree to the releasing of any information needed to determine these benefits payable for related services.
